BEST AVAILABLE COPY

Art Unit: 2838

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. The disclosure is objected to because throughout the specification the space between words is missing or smaller than normal causing run-on words. For example see line 17 of page 1.

The disclosure is objected to because occasionally the wrong reference character is utilized. For example in line 19 of page 3 "armature 3" should be --armature 11--.

Appropriate correction is required.

3. Claims 1-12 are objected to because throughout the claims the space between words is missing or smaller than normal causing run-on words. For example see line 2 of claim 1.

Appropriate correction is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by the Japanese reference cited in the 1/9/02 IDS (JP 4-334,758).

The Japanese reference teaches an engine starter system comprising a starter motor (1), a pinon (17) movable to engage a ring gear (18), a solenoid switch including a exciting winding (2) and a plunger (~16~), a first energizing circuit including a current switching device (5) in series with the starter motor, a second energizing circuit including a relay (~3~) in series with the starter motor, and an electronic control circuit (10) controlling the operation of the current switching device and the relay.

6. Claims 5-7 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. Claims 11 and 12 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, second paragraph, set forth in this Office action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Sterrett whose telephone number is (703) 308-1632. The examiner can normally be reached on Monday through Thursday from 8:00 AM to 5:00 PM.
